

## Tanks

Our tanks are designed to assemble dosing group with mixers and motor driven pumps or solenoid dosing pumps. All are made of food-safe polyethylene, resistant to almost all chemicals normally encountered.

MODEL	CAPACITY (L)	HEIGHT (cm)	DIAMETER (cm)
SER 50	50	45.5	40
SER 100	100	64	46
SER 250	250	87	59,5
SER 300	300	95	67
SER 500	500	118.5	76
SER 1000	1000	122	108.5

## Reinforcement

Tank reinforcement made of PVC (high 20 mm) to be used to install mixers and motor driven pumps or solenoid dosing pumps.
